 Maumee, Ohio 43537  
 Tel: 419-893-9021  
 Contact:

### General Contractor:

Tuttle Construction, Inc.  
 880 Shawnee Road  
 Lima, Ohio 45805  
 419-228-6262  
 PM: Gary Stechschulte  
 Superintendent:  
 Mike Weiphman

## Bowling Green Middle School & Auditorium

**Project start date:** March-08  
**Project completion date:** September-09  
**Total project dollars:** \$3.65M (Masonry)  
**Construction type:** Hard Bid GC

### Project scope:

The new 150,000 sq ft. school will provide students the opportunity to learn about and participate in multicultural experiences. Project includes construction of a Gymnasium, 2-story classroom wing and an Auditorium capable of seating approximately 800 people. Special block has been specified in the Auditorium and Lobby to enhance the interior aesthetics. Also, on the interior, numerous hallways and stairways will feature Glazed tile in place of standard painted block to provide a nice color within the building. The Exterior is enhanced with Architectural Precast Panels that run vertical on numerous facades around the exterior. The Roof Line is broken up into numerous wall elevations to further highlight the exterior brick and precast elements. When this project is finished Bowling Green Middle School will be LEED certified and used recyclable materials throughout the new construction.
