Superintendent: Bruce Place

Bluffton Middle School

Project contract date: 10/21/1997

Project completion date: 10/31/1998

Construction cost: \$3,100,748

Construction type: General Contractor

Project scope:

This building has many attributes that will enhance the learning process of the Bluffton Middle School students. Other than the eleven classrooms, the building houses three science labs, a computer lab and a large media center. The facility also includes a gymnasium, band room, choir room, art studio, and cafeterium, which is a combination of an auditorium and a cafeteria.

Project accomplishments:

This project was one of the most successful projects ever constructed by Tuttle. There were no lost time injuries, there were no schedule problems, no budget problems and all team members involved shared an excellent working relationship. This project as a whole ran as smoothly as a project could possibly run. An excellent team effort, keeping very active throughout the project's development, was made by all stakeholders involved.
