Tuttle Construction, Inc.
880 Shawnee Road
Lima, Ohio 45805
Tel: 419-228-6262
PM: Rob Brown
Supt.: Jeff Easton

Buckeye Valley Middle School

Project contract date:	3/1/96
Project completion date:	7/15/97
Construction cost:	\$5,236,120
Construction type:	General Contractor

Project scope:

This technologically advanced facility consists of 135,000 square feet. The majority of this building is one story, however there is one section that is two levels. The foundation consists of a strip footer, block foundation, block walls, brick veneer, and a standing seam roof. The interior has over 14,000 square feet of Terrazzo floors. The corridor walls are block and the balance of the building consists of metal stud/drywall. There are 25 classrooms total, each equipped with television monitors. The 8,000 square foot gymnasium consists of wood flooring.

Project accomplishments:

The greatest challenge was overcoming the schedule delays and having the building ready by the first day of school. Labor-intensive materials, initial limited access to the site, and discovering some unknown underground obstacles were other major project accomplishments. Overall, the schedule was met and all of the other challenges were overcome.
