Walsh Construction Company
929 West Adams
Chicago, Illinois 60607

Project Manager: John Frye
Superintendent: Dave Markovich

Patient Pavillion Tower Addition

Project inception date: April 2005 (Tuttle contract)

Project completion date: May 2006 (Tuttle contract)

Contract Amount: \$1,844,741.00 (through CO 5)

Construction type: Masonry Subcontractor

Project scope:

Tuttle Construction, Inc. was contracted as the masonry contractor for this 7-story, \$40 Million addition to the existing hospital facility.

Project accomplishments:

Delays in starting the foundation work and structural steel delayed the start of the major masonry operations by two months. Tuttle successfully recovered over a month of this lost time by efficient scheduling and management of their portion of the project.
